

# Features

This chapter describes how to operate technology features.

## **Audio/Information System Guide**

Notice regarding Audio/Information	
Screen Replacement.....	2
Feature Availability Based on Connection	
and Account Status.....	6
Google Assistant Features .....	7

System updates may result in some differences between the content of this manual and your experience using the actual vehicle.

## Notice regarding Audio/Information Screen Replacement

After the audio/Information screen is replaced, some applications and settings must be re-set.

Take note of your settings before replacing the audio/information screen so that you can restore old settings after replacement.

### About 3rd party apps

3rd party apps must be downloaded again after the audio/information screen is replaced.

#### Audio/Information System Guide

Google, Google Play and Google Maps are trademarks of Google LLC.

For the most up to date information, please access the Google Help Center: <https://support.google.com/googleappsincar/?hl=en#topic=9858252>

#### Notice regarding Audio/Information Screen Replacement

Differences in software versions before and after replacing the audio/information screen may cause differences in how the audio/information screen is operated.

Information recorded in your Google Account can be carried over without any special operations. Google Assistant, Google Maps and Google Play settings cannot be automatically carried over.

#### About 3rd party apps

The vehicle must be stopped in order to start the download of 3rd party apps.

## ■ Settings that can be transferred

Some settings can be carried over at your dealer. Please refer to the table for features that can be carried over after the audio/information screen is replaced. Please consult your dealer for details.

### ■ System

Features		Description
Date & Time	<b>Date &amp; Time</b>	
	<b>Automatic Date &amp; Time</b>	Turn automatic date & time On/Off settings.
	<b>Time Zone</b>	
	<b>Automatic Time Zone</b>	Turn automatic time zone On/Off settings.
	<b>Automatic Daylight Savings</b>	Turn automatic daylight savings On/Off settings.
Language	<b>Date Format</b>	Date Format settings.
	<b>Time Format</b>	Time Format settings.
	<b>Center Display &amp; Instrument Cluster</b>	
Sound and Notifications	<b>List of language</b>	Language settings.
	<b>System sounds</b>	
	<b>Text-to-Speech</b>	Volume settings.
	<b>Navigation On Guidance</b>	

■ Connection

Features			Description
Bluetooth	Option	Bluetooth	Bluetooth settings.

■ Camera

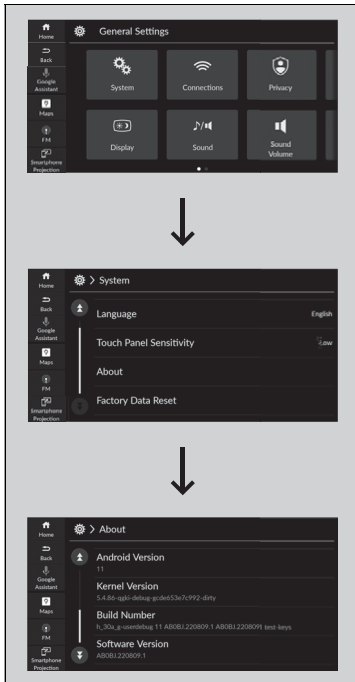

Features		Description
Lane Watch	Show with Turn Signal	Turn LaneWatch On/Off settings.
	Display Time after Turn Signal Off	Adjust LaneWatch screen's display time after Turn Signal Switch Off is selected.
	Reference Line	LaneWatch screen guideline settings.

## ■ Checking the audio/information screen software version

After replacing the audio/information screen, follow the steps below to check the software version. Please ensure you are running the latest software version.

If the OS version is not the latest, please update it.

1. Press the **Home** button.
2. Select the **General Settings**.
3. Select the **System**.
4. Select the **About**.

## Feature Availability Based on Connection and Account Status

Some Google built-in features require an active internet connection and a signed in Google Account. Please reference the following tables for feature availability based on connection and account status.

### ■ Feature availability based on Connection and Account Status

Connection Status		Time Elapsed (since last online)	Account Status	Google Assistant	Google Maps	Offline Maps	Google Play
Online	Vehicle Data Plan	-	Signed in	Available	Available	-*1	Available
			Signed out	Limited availability	Limited availability	-*1	Not available
	Wi-Fi or Tethered Phone	-	Signed in	Available	Available	-*1	Available
			Signed out	Limited availability	Limited availability	-*1	Not available
Offline	Within 30 days		-	Limited availability	Limited availability	Available	Not available
	Over 30 days		-	Limited availability	Not available	Temporarily available*2	Not available

\*1: Google Maps requires access to vehicle location information. Offline Maps is intended to support Google Maps usage during intermittent periods without connectivity, a vehicle data plan is required to keep Google Maps updated and automatically download.

\*2: If the system is offline for over 30 days, Offline Maps may not be available after a certain period of time.

## Google Assistant Features

You can activate Google Assistant by:

- Say "Hey Google".
- Press the  (Talk) button on the steering wheel.
- Selects the Google Assistant icon on the infotainment screen.

You can use Google Assistant to operate various in-vehicle features and 3rd party apps such as Google Maps.

Refer to the table for a list of sample voice commands.

### Google Assistant Features

Depending on your vehicle's equipment, some of the sample commands listed may not be usable.

*Continued*

■ Google Assistant: Vehicle Control

Feature	Overview	Sample Phrase	Online		Offline
			Signed in	Signed out	
Adjust Climate Control	Change to a set temperature	<i>Set the temperature to &lt;degrees&gt;</i>	Y	Y	Y
